Hello Karl,

Your professor asked me to send you these photos. I am currently outside Montreal; however, if we have a chance to meet, we can discuss any issues or questions you may have.

Best,
Francis

Subject: Re: Karl Phd.D Student Welfare

Dear Francis,

Sorry for my delay in answering back. I saw Karl some weeks ago. He was standing near the subway station. He looked OK, doing fine. I'm concerned he is still not working or trying to find a job. Perhaps he has problems with his status here in Canada. However, I would not like to be involved in his life anymore because of what happened here in this university (UdeM) with him, and the way he treated us all. I do not know what he has told you, but there are always several sides to a story. In any case, we took some pictures together that I would like him to have. I would appreciate it if you could send them to him. They are attached with this message. Many thanks.

Best regards,
-Alexandro
